

Ex-Alunos de Mestrado Aceitos em Programas de Doutorado no Exterior

Desde que a primeira dissertação foi defendida em 1981, 185 alunos egressos do mestrado - cerca de 44% dos que defenderam tese no período - foram aceitos em programas de doutorado no exterior. Quase sempre em instituições de primeira linha. O desempenho cada vez mais destacado de ex-alunos nessas instituições tem contribuído para reforçar a imagem do Departamento como centro de excelência. Nos últimos cinco anos, 37 alunos - 63% dos que concluíram o mestrado de 2015 a 2019 - foram aceitos em programas de doutorado no exterior.

Na lista que se segue à tabela abaixo, os nomes dos ex-alunos estão ordenados pelo ano de aceitação nos programas de doutorado e, em cada ano, pela data de defesa da tese de mestrado. Estão marcados com asterisco os ex-alunos agraciados com bolsas das próprias instituições em que foram aceitos.
